

REACH Statement

The European Regulation (EC) No 1907/2006 of The European Parliament and of the Council of 18 December 2006 on Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force on June 1, 2007. REACH requires suppliers to inform recipients if a product contains a Substance of Very High Concern (SVHC) above 0.1% by weight. As of 23 January 2024, the European Chemicals Agency (ECHA) has placed 240 substances in the Candidate List of Substances of Very High Concern.

Johannes Hübner Fabrik elektrischer Maschinen GmbH does not deliver any chemical products, chemical substances as such, or preparations as REACH defines them. Johannes Hübner Fabrik elektrischer Maschinen GmbH delivers finished products. The company is a manufacturer of incremental encoder, absolute encoder, DC tachometer, DC motor and electronic components. No chemical substances are released by these products under normal and reasonably foreseeable conditions of use corresponding to the definition in REACH.

Based on the material content certifications provided by our suppliers, none of these substances are present in the materials we use in our products, including packing and shipping materials. Therefore, the products do not contain any of these SVHC above of 0.1% by weight.

But depending on the product, the following exceptions are used:
